

NOVOKOWSKY CONSULTING: FROM FUNDAMENTALS TO MASTERY

CUSTOM CREATING

Too many consultants, trainers, and coaches rely solely on their packaged products and services. While there may be times such pre-packaged or franchisee products/services may be helpful as a short-term aid. However, Novokowsky Consulting Group has found the pre-packaged additives to resolve your unique human/organizational issues needs are illusory.

Thus, at Novokowsky Consulting Group you can be assured we will look to adapt our material to you and your needs (many consulting competitors try to have clients adapt to the consultant's product/service frameworks - a limited, "bass ackwards" approach!).

Custom-Designed Sessions

For example, over the last 20 years Novokowsky Consulting Group's research, experience and expertise has been shared in more than 60 *custom-designed* workshops and conference presentations at a wide variety of Canadian and American national-level events. Samplings of these are:
